ABOUT US

**ITS
PARTNER**

Ekselans by ITS (EK) is the registered trademark of the company ITS Partner, a company founded in 2011 and dedicated exclusively on the design, development, production and distribution of professional telecommunications electronics.

Although a young company our members pool together over 30 years of experience in the sector, having created and developed leading industrial and R&D companies worldwide. It is particularly this experience which has enabled the EK brand to be present in the market with a range of innovative, competitive products and always with the clear objective of providing solutions to the telecommunications professional.

ITS PARTNER GROUP

The **ITS Partner group** consists of **4 companies focused on engineering, development and distribution** of professional electronics for telecommunications

EK SALES REPRESENTATIVES

EK IN THE WORLD

RUI MAÇÃS
Export manager

Having a well-structured commercial policy and which is **geared towards professional distribution**, EK distributes its solutions in over 30 countries. This global vision enables us to draw upon the experience provided by the different international markets, which is reflected in the varied offer that is made available to clients, in many cases with products tailored to the needs of each country.

R&D CENTERS

R&D INVESTMENT

EK carries out significant investment in research, development and technological innovation. Our engineering teams - which have extensive experience in R&D, industrialisation and production of technological solutions - develop products that are manufactured following the highest quality standards. EK products are manufactured using software, electronics and own molds, with European production being over 60% of the turnover.

INSTALLERS AND EK. WHY CHOOSE US?

- ✓ Exclusive advice for **professionals**
- ✓ Dynamic company with **high investment capacity in development**
- ✓ **Spanish technology company** which invests in its in-house engineering
- ✓ **Classroom-based** and online training for installers
- ✓ **Pre and post sales technical support** for professionals. From the technical office, the responsible product managers of the different product ranges address with the utmost respect and professional rigour any queries which the installers may have.
- ✓ **Objective:** to innovate and offer professional solutions with the greatest possible dynamism, always paying attention to quality and the ability to generate business for our distribution network

OPERATORS AND EK

EK collaborates with over **70 national and international operators**, delivering **high-level** technological solutions: transmodulation and transcoding head-ends equipment, signal encryption systems for secure communications, electronics and interconnection infrastructures on both coaxial as well as FTTH optical fibre, Over-The-Top systems, ...
