Appearance

Pairing with main panel

Scanning the QR Code for Pairing.

- Turn on both the siren and the alarm system, reset the siren by pressing the reset button on the back until it beeps.
- Scan the QR code printed on this accessory.
- The pairing result would be confirmed in App and also be indicated by 2 beeps from siren.

Learn Mode

- Launch the App/PC client for turn on Learn Mode.
- Follow the guideline in App/PC client to trigger the accessory for the system to learn.
- The pairing result would be confirmed in App/PC client and also be indicated by 2 beeps from siren.

Hint: How to trigger?

- Power up the siren.
- Press the reset button on the back until it beeps.

Function Clarification

After successfully paired with main panel, the siren's sound would follow the status of main panel.

NOTE: There is no LED indicator on this model of siren.

All settings can be operated in App after pairing.

Users can determine to beeps or be silent when system alarm mode (ARM/DISARM/HOME ARM)

changes. Other settings like siren time, indicating volume and alarm volume can be set up in App too.

In default, the Sound and Light modes are listed below:

Main panel status	Horn Status	Interval Time of Sound	Sound Frequency
Disarm	Beep 3 times	150 m	1 kHz
Arm	Beep 2 times	150 m	1 kHz
Home arm	-	-	-
SOS	SOS sound	-	-
